

Privacy measures document placeholder

This document is a privacy measures document placeholder that explains how you may install a privacy measures document for Ricgraph, Ricgraph Explorer, or the Ricgraph REST API on a public server.

How to use?

- Create a privacy measures document that fits your situation.
- Use the filename "privacy_measures.[extension of your text editor]".
- Convert this file to a pdf file and use filename "privacy_measures.pdf".
- Put it in .../ricgraph_explorer/static.
- In Ricgraph Explorer, in the footer you will find a link to this file.
